**Bibliographic resource** – A manifestation or item. [Source: IME ICC]

**Bibliographical unit**

*See* Manifestation
Collection – 1. A set of two or more works combined or issued together. 2. A set of bibliographic resources held or created by a given institution. [Source: IME ICC]

Concept – An abstract notion or idea. [Source: FRAD (associated with subjects), FRBR]

Controlled access point – A name, term, code, etc. under which a bibliographic or authority record or reference will be found. [GARR modified] Includes access points designated as authorized or preferred forms as well as those designated as variant forms. Includes access points based on personal, family, and corporate names. Includes access points based on titles for works, expressions, manifestations, and items. Includes access points consisting of a combination of two names and/or identifiers, as in the case of a name/title access point representing a work that combines the name of the author with the name (i.e., the title) of the work. Includes access points based on the terms for events, objects, concepts, and places. Includes access points based on identifiers such as standard numbers, classification indicia, etc. Includes elements added to the name *per se* (e.g., dates) for the purposes of distinguishing between entities with identical or similar names. [Source: FRAD – goes on to note the focus of the model is on names and terms controlled through an authority file.]
